G10
All Range MPV

2.0T turbo charged direct inject engine

Great Power Inspiring Great Capacity

SAIC MAXUS Brand New G10. Shooting with three arrows, entering the market with full force. Equipped with 2.0T/1.9T/2.4L engine, it support you to take the lead of your career. It's powered by a 2.0 litre turbocharged GDI engine with 225 hp and 345 Nm for output numbers. With maximum of 82.5kW/L, its power could be compared to 3.0L natural aspirated engine, but with 30% less fuel consumption. With such a great performance, it is able to get the G10 all the way up to a 190 km/h top whack and acceleration per 100km/h takes 10.2s. The high efficiency brings you huge competitive advantage. Fuel consumption per 100km is as low as 10.3L. The more you save, the more you earn.

2.4L naturally aspirating engine

Maximum power can reach 105kW, while maximum torsion reach 210N·m. Strong power is combined with ultra-low fuel consumption. Consumption per 100km is as low as 10.2L.

ZF 6 speed automated manual gearbox

Smoother power output, swifter response to gear shifting, smoother gear shifting and more comfortable riding and driving experience. The big MPV is as excellent as it is.

Maximum Power **225** HP
• Turbo Charger • FSI • DVVT

Great Space Achieving Great Pattern

The brand new SAIC MAXUS G10 is equipped with supreme first class executive seat with 10 adjustments. Ventilation and heating function is all in place to create an exclusive journey. Adopt magic box inner cabin design for the first time design to achieve spacious seven-seat inner cabin which can also accommodate up to nine seats to satisfy customers' demand on big space and multi-functions. The floor rail layout creates the "golden second row", which has spacing maximizing at 1,070mm at second row and 1230mm at the third row, giving more space to travel mates and more space for a successful career. The 2500l trunk gives you more room for your luggage. Rotating and flipping seat is optional, which not only makes it convenient for passengers on the second and third row to communicate face to face, but also provides more spacious room for loading, satisfying your need to load more luggages.

Great Technology Leading to Great Future

The brand new SAIC MAXUS G10 integrates cutting-edge technology to provide you with more human-oriented configurations. Be it the Car-Link human-vehicle smart interaction system, the touch-free smart sensing rear door, or the smart anti-squeeze automatic sliding doors on both sides are all in place to create a more convenient experience for you. At the same time, the brand new G10 provides a comprehensive safety protection with EURO 5 star safety standards. Adopting the new generation Bosch ESP9.1 electronic stabilization assistance system, it is proactive in safety guarantee, which gives you full control of success in stable and steady manner. The world's leading Layer build double welding technology gives you more than 50% of super high intensity and high intensity steel utilization rate, a passive safety shield that gives you reliability way above same grade vehicle and allows you to drive carefree.

Car-link human-computer smart interaction system can synchronize mobile phone and big screen, realizing convenient interactive touch control.

Nivomat fully automatic driving control system, combining comfort, trafficability and manipulation.

Smart lane-switching reminder to give pre-warning on the risk of lane-switching and to avoid blind spots during driving.

Smart anti-squeeze automatic sliding door system on both sides makes stepping in and out more convenient and safe.

Touch-free smart sensing rear door to thoroughly free up your hands.

360-degree panorama video coverage to eliminate blind spot and make driving safer.

Comprehensive parking assistance system with complete guarantee to free your worries.

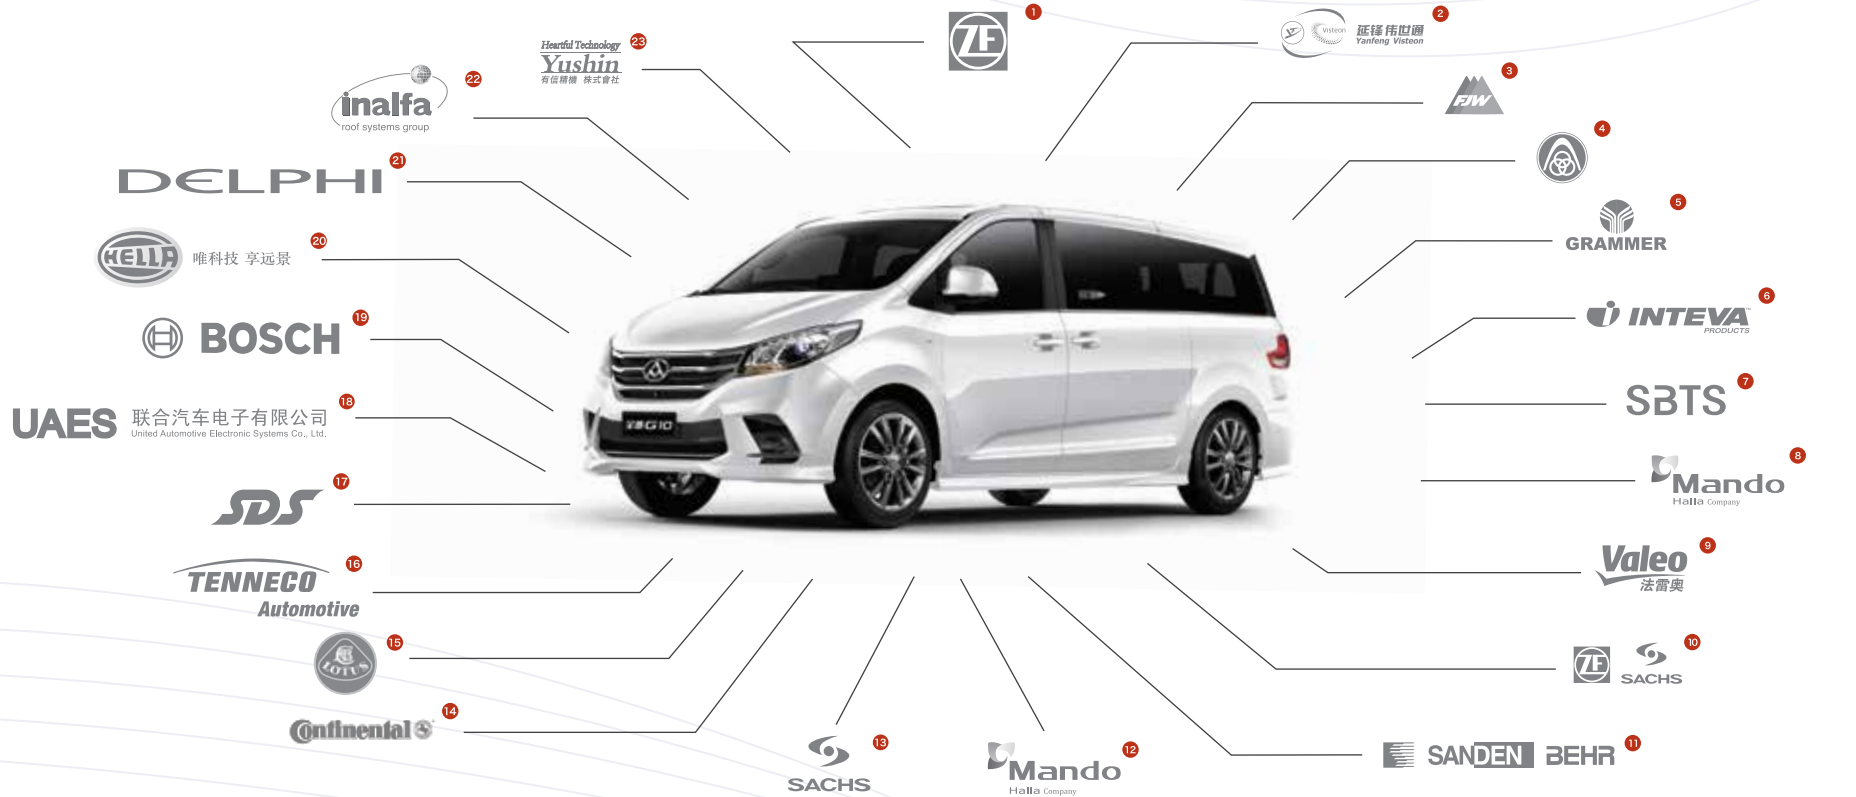

Latest generation of Bosch ESP9.1 electronic stabilization assistance system to provide full control on safety.

Integrated body, Layer Build double layer welding technology, making passive safety stronger.
